

Automated Border Control Gates for Europe

Did you know that...

all the European Automated Border Control systems
are different?

We aim to harmonise them.

And in order to do so, we need your help!

For more information please visit www.abc4eu.com.

This project has received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under grant agreement no 312797.

Automated Border Control Gates for Europe

ABC4EU stands for Automated Border Control Gates for Europe. It is an EU wide project focusing in the need for harmonization of ABC gates.

At the moment the Automated Border Control System can be used by passengers with European Union Member States', European Economic Area's or Swiss' ePassport recognized by microchip symbol.

ABC4EU is a 3,5 year, EU Framework Programme 7 (FP7) Project that began in January 2014.
